

## Berkshire Pulse Choreography Lab Application

The Berkshire Pulse Choreography Lab is a residency for emerging and local dance artists to work on their personal artistic projects in Berkshire Pulse's state-of-the-art studios.

Artists will have up to 40 free rehearsal hours which can be scheduled when studio space is available, weekdays between 9am-2pm, Saturday afternoons/evenings and Sundays. In addition to space, Berkshire Pulse will provide feedback support as needed, dancers as needed, and in-house showings, if interested. We welcome projects in any stage and wish to support artists that are working towards a performance and artists that have an emphasis on process and experimentation. We look forward to having you create and share in our space!
