

A CENTER FOR DANCE AND THE CREATIVE ARTS

## 2022 COVID-19 VACCINE AND MASKING POLICIES

### Masks

- **Masks are required for *all* faculty, staff, and students, regardless of vaccination status, inside the facilities at Berkshire Pulse. Teachers should provide ample mask/water breaks for students.**
- **All participants must wear either a medical grade surgical mask or N95 mask. We are asking participants *not* to wear cloth masks while dancing or using the studios. Pulse has a limited supply of approved masks available for those who need one.**

### Vaccines

- **COVID vaccines are required for all adult students (age 18+) in order to participate in classes at Berkshire Pulse.**
- **Adult students must provide proof of vaccination to use Pulse's studios. Adult students may either email a photo of their vaccination card or present it in-person at the front desk.**
- **If an adult student is unable to receive a COVID vaccine due to a medical condition, they may provide us with a doctor's note explaining their situation. Adult students may not dance inside Berkshire Pulse facilities until they have provided either proof of vaccination or a valid doctor's note.**
